INDUSTRY-DEVELOPED, INDUSTRY-APPROVED TRAINING INNOVATIONS

Course description

Pipeline Construction Safety Training (PCST)

SUMMARY

This course has been designed and developed by the construction industry to address health and safety issues specific to pipeline construction in the oil and gas industry.

DESCRIPTION

Construction safety is not to be taken lightly, and it is something that the pipeline construction industry takes very seriously. This course is intended to familiarize you, the worker, with how to recognize, assess and control hazards on the work site. It has been designed to complement other safety-related courses offered by the industry.

OBJECTIVES

After completing this course, you will:

- Know how to recognize hazards
- Know how to assess hazards
- Know how to control hazards
- Know how to operate a vehicle safely
- Know how to operate equipment safely
- Know how to respond to emergencies

AUDIENCE

This course is intended for people working in the oil and gas pipeline construction industry.

COURSE LENGTH

The course duration is approximately 4 hours.

AVAILABLE FORMATS

This course is available online in English and French.

CREDITS/CERTIFICATES

A final mark of 100% is required in order to receive a certificate of completion.

CERTIFICATION EXPIRY PERIOD

5 Years

Note: A 5-year expiry period applies to courses completed on or after January 1, 2014. Courses completed before January 1, 2014 have a 3-year expiry period.

HOW TO ENROLL

You will require a PIN # prior to registering for this course. Please contact your local distributor to obtain your PIN # and cost information. Distributors can be located on the Construction e-Learning Centre website at <http://elearning.buildforce.ca>.
